10:00-10:20 Registration and coffee

10:20-10:30 Welcome

10:30-11:30 Innovations in spatially resolved multi-analyte profiling and library free NGS

Rich Boykin | PhD

Sr. Dir. R&D, Bioinformatics
Nanostring
Seattle – United States

11:30-12:00 NanoString application for lymphoma research and diagnosis

Dr. Miguel Angel Piris

Associate Medical Chief
Pathology Service – Fundación Jiménez Díaz
Madrid – Spain

12:00-12:30 Break

12:30-13:00 Clinical value of gene expression signatures in lymphoid neoplasms"

Dr. Elías Campo

Clinical Director
Biomedical Diagnostic Centre of Hospital Clinic
Barcelona – Spain

13:00-14:00 Lunch and Poster Session

14:00-14:30 Use of nCounter technology for patient molecular characterization and stratification in early phase clinical trials

Dr. Ana Vivancos

Principal Investigator
Cancer Genomics Group – Vall d’Hebron Institut of Oncology
Barcelona – Spain

14:30-15:00 MicroRNA profiling by nCounter technology as tool for molecular diagnosis in reproductive medicine

Dr. Antonio Romero-Ruiz

Physiology, Development and Neuroscience
University of Cambridge / IMIBIC
Córdoba – Spain

15:00-15:30 GeoMx™ Digital Spatial Profiler applications

Indira Medina | PhD

Product manager- Technology Access Program
Nanostring- Seattle

15:30-16:15 Smart data analysis workshop

Serge Scherrer, Jim White | PhDs

Sr. Application Scientist
Nanostring

16:15-17:30 Social engagement & close
